

# INTERNATIONAL SEARCH REPORT

International application No.  
PCT/AU2004/000380

A. CLASSIFICATION OF SUBJECT MATTER																						
Int. Cl. ?: A01K 15/02																						
According to International Patent Classification (IPC) or to both national classification and IPC																						
B. FIELDS SEARCHED																						
Minimum documentation searched (classification system followed by classification symbols) Refer to electronic data bases consulted below.																						
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched																						
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) Derwent World Patent Index and esp@ce and USPTO Internet sites: IPC A01K 15/-, 29/-, A61B 5/- and keywords: speed, velocity, gps, dgps, global, heart, blood, pulse, temperature, breath, monitor, sense, horse, equine, equidae, etc.																						
C. DOCUMENTS CONSIDERED TO BE RELEVANT																						
Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.																				
X, Y	Derwent Abstract Accession No. 2003-283024/28, Class P31;S02, JP 2003024287 A, (ZH SHINSANGYO SOZO KENKYU KIKO) 28 January 2003 (and Patent Abstracts of Japan, JP 2003-024287 A) See whole document.	1-19, 24-26, 30-38																				
X, Y	GB 2347503 A (OLIVER et al) 6 September 2000 See whole document, but in particular lines 12-17 of page 5	1-19, 24-26, 30-38																				
Y	DE 19911766 A ((FIDELAK) 28 September 2000 See whole document, but in particular line 57 of column 2 to line 2 of column 3, lines 64-67 of column 3 and claims 6-7.	1-19, 24-26, 30-38																				
<input checked="" type="checkbox"/> Further documents are listed in the continuation of Box C <input type="checkbox"/>																						
<p>* Special categories of cited documents:</p> <table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 20%;">"A"</td> <td>document defining the general state of the art which is not considered to be of particular relevance</td> <td style="width: 20%;">"T"</td> <td>later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention</td> </tr> <tr> <td>"E"</td> <td>earlier application or patent but published on or after the international filing date</td> <td>"X"</td> <td>document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone</td> </tr> <tr> <td>"L"</td> <td>document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)</td> <td>"Y"</td> <td>document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art</td> </tr> <tr> <td>"O"</td> <td>document referring to an oral disclosure, use, exhibition or other means</td> <td>"&amp;"</td> <td>document member of the same patent family.</td> </tr> <tr> <td>"P"</td> <td>document published prior to the international filing date but later than the priority date claimed</td> <td></td> <td></td> </tr> </table>			"A"	document defining the general state of the art which is not considered to be of particular relevance	"T"	later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention	"E"	earlier application or patent but published on or after the international filing date	"X"	document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone	"L"	document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y"	document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art	"O"	document referring to an oral disclosure, use, exhibition or other means	"&"	document member of the same patent family.	"P"	document published prior to the international filing date but later than the priority date claimed		
"A"	document defining the general state of the art which is not considered to be of particular relevance	"T"	later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention																			
"E"	earlier application or patent but published on or after the international filing date	"X"	document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone																			
"L"	document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y"	document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art																			
"O"	document referring to an oral disclosure, use, exhibition or other means	"&"	document member of the same patent family.																			
"P"	document published prior to the international filing date but later than the priority date claimed																					
Date of the actual completion of the international search 20 April 2004	Date of mailing of the international search report 30 APR 2004
